Message from Women's Principal

Education is not a mere acquirement of facts but also of values. An essential role of education lies in shaping the personality of students who will not only be equipped with 21st century skills and aptitude required for academic excellence but also furnish them with the ability to face the challenges of life in a balanced and harmonious way.

In the 21st century, the education scenario is changing by leaps and bounds. Experimentation seems to dominate the zone of the teaching-learning process. Today there is a paradigm shift in the whole process of education. As understood rightly, teaching is not just transmitting knowledge but, more importantly forming and transforming young minds. The ability to inspire and motivate them is demanded of every educator.

Co-curricular and extra curricular activities inculcate not only the love for social service, discipline, awareness for one's rights and duties, pride for Indian culture and tradition, but also make them good human beings and confident leaders. Moreover through discipline which is non-negotiable factor in a student's life on our campus, the students inculcate the values of time, management and punctuality.

I am pleased that you are thinking about joining Prathibha College for your next step, Prathibha College is a diverse and friendly learning community where student progress well in their studies and we are very proud of their achievements. We are particularly proud of the progress our students make from their own individual starting points and the incredibly positive destinations they ultimately achieve, either in good higher education places or jobs with continuing training. We are proud to recognize the success of the college and our students during their most recent visit, which rated the college as good.
